## New Universal MULTI CLAMP

# Accessories

## Highlights

**ISCAR is expanding the MULTI CLAMP family of clamping fixtures for rotary tools with shanks, by adding new multi-functional fixtures intended for mounting different types of shanks.**

### Features

- A new design concept with a needle roller system for clamping taper shanks
- Suitable for clamping different types of shanks such as HSK, CAMFIX, BT etc.
- Self-locking gripping mechanism
- Quick-change system

### Advantages

- Versatility: one fixture is suitable for different shank types
- Quick, easy and reliable clamping
- Eliminates shank taper scratches

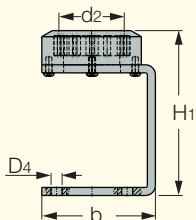

### Mounting table for standard tool holder taper types
